**Local CRYO° \$25**

7-minute session. Local CRYO or CRYOfacial exposes a targeted area of the body to extremely cold temperatures. Often used to reduce pain and inflammation, improve circulation, and promote healing in a specific area.

**Red Light Therapy \$25**

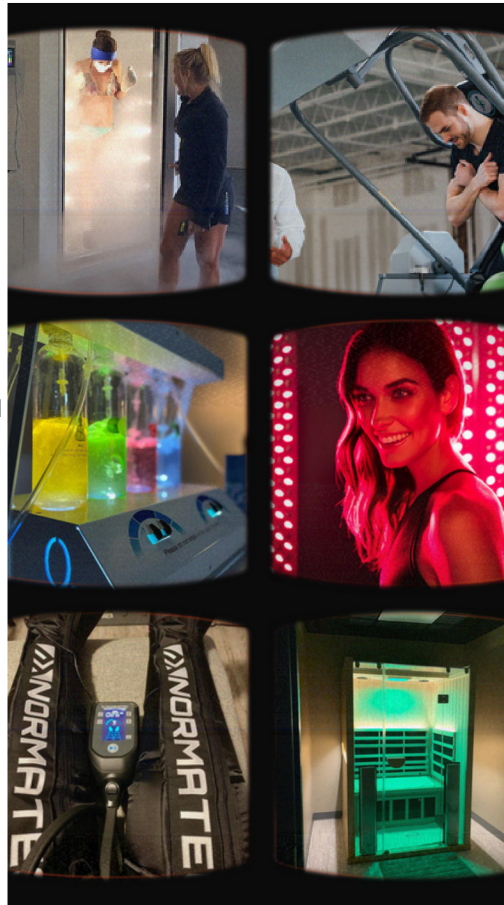

Our 10-minute red light therapy service emits red and near-infrared light wavelengths that stimulates cellular function and promotes overall health + wellness. Our full body 12-panel system offers benefits such as improved skin health, reduced inflammation, and enhanced athletic performance.

**AllCore360° \$25**

AllCore360 is a core-fitness machine that provides a full core workout in only 10 minutes. It uses isometric contractions to target all 54 muscles in the core, providing strength, symmetry, reduced pain, and improved posture.

**Oxygen+Aromatherapy \$25**

Spend 30 minutes with us, inhaling oxygen + optional aromatherapy. Boost your energy, reduce stress, and improve your overall well-being. Adding one of our therapeutic aromatherapy selections creates a more immersive and therapeutic experience.

**NormaTec Compression \$25**

Compression therapy for athletes and individuals seeking to improve circulation and reduce muscle soreness. Patented, automated massage patterns stimulate the natural movement of the body's lymphatic system and enhance the natural recovery process. Available in 3 areas of treatment. Choose from: Full Legs, Arms + Shoulders, or Hips + Butt

**Infrared SAUNA \$50**

30-minute session at approx 160° in our private Infrared Sauna. Can improve detoxification, relieve pain, improve relaxation and cardiovascular health. CLIENT FAVORITE: For a special treat, consider a nice cool down halotherapy session immediately after your sauna.

**HALOtherapy \$50**

Breathing in microscopic particles of pharmaceutical grade salt. Benefits may include improvement in allergies, asthma, bronchitis, and some skin conditions. 20-minute private session. GREAT COOL DOWN IMMEDIATELY AFTER SAUNA, Pairs nicely with Oxygen.

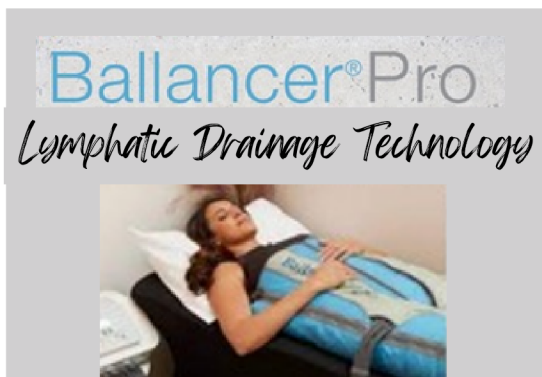

**Whole Body CRYO° \$50**

An invigorating, non-invasive therapy that exposes your body to extremely low temperatures (-151°) for up to 3.5 minutes, offering benefits such as reduced inflammation, improved recovery, enhanced mood, boosted metabolism, and improved skin health.

## HEALTH + WELLNESS

**Therapeutic Massage + Cupping**  
designed to improve a person's health and well-being. Involves the manipulation of soft tissues and muscles to relieve tension, reduce stress, and promote relaxation.

# BODY SCULPTING

## Venus Bliss Laser Lipolysis

### SUPERIOR FAT REDUCTION:

Minimally-invasive laser lipolysis/body contouring. Uses laser energy to melt and remove excess fat from targeted areas of the body. This treatment can result in spot fat reduction from 19-41%, when performed in a series. Discount packages are available.

## Venus Bliss Max MP2

### FOR LOOSE SKIN and CELLULITE:

Non-invasive body contouring + fat reduction treatment. Uses radio frequency and pulsed electromagnetic field technology to heat and destroy fat cells. Targets stubborn areas of fat, cellulite, and loose skin on the body, including abdomen, thighs, and buttocks, while tightening and toning the skin.

**ThriveBody**  
Shed. Tighten. Smooth. Flex.  
ThriveWheeling.com

## Venus Bliss Max FLEX MAX

for Muscle Building and Toning:

Non-invasive body contouring treatment using non-invasive muscle stimulation and electromagnetic technology to contract and relax muscles in the abdomen, arms, legs, and buttocks area, resulting in a toned and sculpted appearance. Can improve muscle strength, increase endurance, and enhance overall body contouring.

**Custom built packages,  
based on your desired results  
- call for consultation!**

## EMsculpt NEO

A non-invasive body sculpting treatment that simultaneously burns fat and builds muscle using a combination of high-intensity electromagnetic energy and radio-frequency technology. Targets specific areas of the body, such as abdomen, buttocks, & thighs, as well as calves, arms, love handles, & saddlebags, to help individuals achieve a more toned and defined physique.

## EMTONE

Non-invasive treatment using radio frequency and targeted pressure energy to reduce cellulite and improve skin texture. Stimulates collagen and elastin production, while also breaking down fibrous bands that cause cellulite, resulting in smoother and more toned skin.

AFTER EMTONE & EMTONE

# FACE + SKIN

## Geneo GLo2 Facial

Get glowing skin with Geneo GLo2 facial! This innovative treatment exfoliates, oxygenates, and infuses the skin with essential nutrients, leaving you with a radiant and refreshed complexion.

## TheSALTfacial

The SALTfacial by SaltMed is a non-invasive facial treatment that uses salt and ultrasound technology to exfoliate, hydrate, and rejuvenate the skin. This treatment can improve the appearance of fine lines, wrinkles, acne, and hyperpigmentation, leaving the skin looking brighter, smoother, and more youthful.

## VI Peel

VI Peel is a medical-grade chemical peel that uses a blend of powerful ingredients to penetrate deep into the skin, exfoliate dead cells, and stimulate collagen production. Can help reduce the appearance of fine lines, wrinkles, sun damage, and acne scars, leaving the skin looking smoother, brighter, and more youthful.

*Medical-grade  
Skincare available*

**ALASTIN<sup>®</sup>**  
SKINCARE  
scientifically-proven  
clinically-tested

**ALASTIN skincare is a powerful skincare line**

to promote optimal skin health and enhance the results of skin rejuvenation treatments.

## BOTOX<sup>™</sup>

We treat 11 areas: forehead, crows feet, 11s, bunny nose, gummy smile, nasal flaring, dimpled chin, downturned mouth, jaw slimming, lip flip, & neck bands.

## Juvederm Dermal Filler<sup>™</sup>

Whether you are looking for a NATURAL look or a more DRAMATIC look, our expert injectors will help you enhance your natural beauty with carefully placed dermal filler.

*Our injectors specialize in wrinkle-relaxers, anti-aging, enhancing your best features, and restoring a youthful lift.*

*Treatments for vitiligo & scalp psoriasis available.*

## Sciton MOXI<sup>™</sup>

Comfortably delivers gentle laser energy to the skin to promote new cell growth and reduce unwanted pigment. With MOXI<sup>™</sup> you can correct uneven pigmentation and improve skin tone and texture, without the recovery or downtime associated with more aggressive laser procedures.

## Aerolase Neo Elite

A non-invasive laser treatment that uses a 650-microsecond pulse to target and treat a wide-range of skin conditions, including acne, rosacea, pigmentation, sun damage, and age spots. This treatment is gentle, safe, and suitable for all skin types, providing long-lasting results with minimal discomfort and downtime.

## Diamond Polar Skin Tightening<sup>™</sup>

A non-invasive and gentle procedure that uses radio frequency treatments to tighten and contour the skin and creates enough thermal effect to induce collagen growth and remodeling.

## IPL Skin Rejuvenation<sup>™</sup>

Uses intense wavelengths of light to heat the surface enough to stimulate the skin to naturally regenerate while boosting collagen production. Over time, patients are left with a smoother skin tone, healthier complexion, and less visible sun damage.

## TriBella Treatment

This exciting non-invasive cosmetic treatment combines multiple technologies in one session to improve skin tone, texture, and firmness. Intense pulsed light (IPL), radiofrequency (RF) + PEMF/MP2, and RF Nanoneedling work synergistically to address multiple concerns.

## Radio Frequency Nano-Needling

NanoFractional Radio Frequency (RF) with SmartScan<sup>™</sup> technology, is a highly customizable professional skin resurfacing machine. An alternative to microneedling and fractional laser treatments, it delivers exceptional results with low downtime and is safe for all skin types.

## AgeJET Nitrogen Plasma

A non-invasive cosmetic treatment that uses ionized gas to stimulate collagen production and improve the tone and texture of the skin. This treatment can reduce fine lines, wrinkles, pigment, and acne scars, and produce a smoother, more youthful appearance.

**EMFACE<sup>®</sup>**

Less  
Wrinkles  
More  
Lift  
Needle-Free

**EMFACE<sup>™</sup>** Non-invasive facial rejuvenation treatment that uses high-intensity focused electromagnetic energy to stimulate collagen production, lift & tighten skin, enhance cheek volume, & reduce the appearance of wrinkles & fine lines. The treatment is designed to improve the overall texture, tone, firmness, & lift the skin on the face & neck. Creates improved face volume and lift, without the use of dermal fillers

## NEW AT Thrive!

## BHRT - Bio-Identical Hormone Replacement Therapy with Biote

For men and women - Hormone levels change as we age, causing low mood, poor sleep, and other health issues. Optimizing your hormones may help provide relief from some hormone imbalance symptoms. Bioidentical hormones, such as the ones used by Biote, work with the body's chemistry because they closely replicate the molecular structure of the hormones that normally occur within the body.
